INSTRUCTIONS

The technique for these mugs is the same, just using different colors:

1. Apply one generous coat over the sweater section of the mug, making sure to get paint into all the crevices. Allow the paint to dry. For the neutral mug we used Honeycomb, and for the Christmas colored mug we used Olive You.
2. Use a damp sponge to wipe off the excess paint. We want to leave the paint in the crevices and remove the paint from the raised area.
3. Add a little water to your trim color, using 50% water to 50% paint. For the neutral mug we used Sahara and for the Christmas colored mug we used Cranberry Sauce.
4. Use a medium brush to apply one coat of watered down color to the trim and the handle.
5. Leave the inside of the mug unpainted, it will be white and shiny after it's fired.

TIPS

- Rinse out the sponge frequently as you're wiping the mug to keep the raised areas clean.
- Any colors can be used for this technique.
